

JENNIFER M. GRANHOLM
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
LANSING

STEVEN E. CHESTER
DIRECTOR

March 31, 2008

Dear Municipal Water Supply Representative,

The Michigan Department of Environmental Quality (MDEQ) Source Water Protection Unit (SWPU) is conducting a survey to learn how municipalities are protecting their source water. We are particularly interested in the contaminants you've encountered, your protection program efforts, and education strategies that your community is currently using especially in light of the current fiscal climate.

To accomplish this, we request that you please complete and return the attached questionnaire.

To complete and submit this questionnaire electronically:

- 1) Complete the questionnaire and save a copy to your PC or local area network.
- 2) Attach the completed questionnaire to an e-mail addressed to grinwiss@michigan.gov with the subject line, "GroundWater Source Survey - SWP."

If you have any questions about Source Water Protection, or would like to request assistance, please call 517-241-1339 and ask for Sue Grinwis. A great deal of information concerning Source Water Protection for systems with ground water for a source can be found on our Web site at: <http://www.michigan.gov/deqwhp>.

If you have any questions, please contact me at the number or e-mail address below. Your help in completing this survey by April 18th will be greatly appreciated. We appreciate any comments about this survey or the SWP Program in general.

Thank you very much for your assistance.

Sincerely,

Sue Grinwis
